## Internationality

### Our principle: growing together

KrewelMeuselbach is a private owned pharmaceutical company with two production sites in Germany. Our core business is to produce and market OTC natural products worldwide. Currently we are partnering in 50+ countries.

With our local teams abroad and our experienced export sales team we develop new markets together with our partners. Currently we are looking for new partners in some regions. Beside this we strengthen our position by enlarging the portfolios of our partners with additional products.

All our products are "Made in Germany". Both of our production sites are up to date and qualified by several authorities.

**Made in Germany.** Regional roots. At home worldwide.

**Trust our experience in sales! What can we do for you?**
